SAFe® Lean Portfolio Management - Aligning strategy with execution,

with SAFe® Lean Portfolio Manager Certification

Create a culture of innovation, flexibility, and speed where all people in the portfolio can effectively execute as one, unified team.

This training is On-Line and is Blended Training, with the latest video and collaboration tools and with two very experienced SAFe teachers. Everything is kept together on our e-learning platform. As SPCT Gold partner and part of the SPCT community, we have together with Scaled Agile developed an approach with four main blocks of teaching on 4-4.5h. On top of that, we have added preparation and certification support meetings before and after the training and homework in between. This all in all is guaranteeing the quality Scaled Agile is requiring and we then take it to one level above as well.

About this course

Lean Portfolio Management is a two-day, interactive course that teaches the practical tools and techniques necessary to implement Strategy and Investment Funding, Agile Portfolio Operations, and Lean Governance. There is also an additional 1-day workshop available to help enterprise teams get started with LPM in their organization.

In this course, attendees gain the practical tools and techniques necessary to implement the Lean Portfolio Management functions of Strategy and Investment Funding, Agile Portfolio Operations, and Lean Governance. Participants also have the opportunity to capture the current and future state of their portfolio with the Portfolio Canvas tool and identify important business initiatives for achieving the portfolio vision. Participants establish portfolio flow with the Portfolio Kanban and prioritize epics for maximum economic benefit. The course also provides insights on how to establish Value Stream Budgets and Lean Budget Guardrails and measure the Lean portfolio performance.

Through our **training concept**, the participants will be involved in a learning process that creates insight and lasting knowledge. The training has been designed to include theory, practical exercise, dialogue, and reflection.

Who will benefit?

This course is designed for leaders and influencers who are responsible for the Lean Portfolio Management function. Examples include:
- Executives and leaders (CIOs, CEOs, CFOs, CTOs, and VPs)
- Enterprise architects
- Product managers and solution managers
- Business unit managers
- Program office personnel
- SPCs and enterprise Agile coaches
- Human resources
- RTEs
- Epic Owners

Prerequisites

All are welcome to attend the course, regardless of experience but we recommend you have the following knowledge:
- Familiarity with Agile concepts and principles
- Attended a Leading SAFe® or SAFe® PO/PM course
- Experience working in a SAFe environment

www.agiletechdevelopment.net
