SAFe DevOps

Enabling Release on Demand for the Lean Enterprise,

with SAFe® DevOps Practitioner Certification

About this course

This two-day course provides a comprehensive overview for understanding the DevOps skills needed to accelerate time-to-market by improving the flow of value through the **Continuous Delivery Pipeline**. You will map the current value stream through the delivery pipeline from idea to cash, and identify practices that will eliminate bottlenecks to flow. The course will build an understanding of the complete flow of value from Continuous Exploration to Continuous Integration, Continuous Deployment, and Release on Demand.

www.agiletechdevelopment.net

Through our **training concept**, the participants will be involved in a learning process that creates insight and lasting knowledge. The training has been designed to include theory, practical exercise, dialogue, and reflection.

Who will benefit?

- All members of an Agile Release Train
- Development Managers, Engineering Managers
- Configuration Managers, Release Managers
- Development Leads, Developers, UI/UX Developers
- Infrastructure Architects, System Architects
- Product Managers, Product Owners
- System Administrators, DBAs, InfoSec
- QA Managers, Testers
- Release Train Engineers, Scrum Masters

Prerequisites

All are welcome to attend the course without prior knowledge.

What you 'll learn

After attending the class, attendees should be able to:
- Explain how DevOps enables strategic business objectives
- Apply a CALMR approach to DevOps to avoid automating broken processes
- Understand how successful DevOps requires continuous exploration, continuous integration, continuous deployment, and the ability to release to end users on demand
- Incorporate continuous testing and continuous security into the delivery pipeline
- Use value-stream mapping to measure flow and identify bottlenecks in the end-to-end delivery process
- Select DevOps skills and tools strategically for the fastest, most compelling results
- Prioritize DevOps solutions and investments for greatest economic benefit
- Design and implement a multi-phased DevOps transformation plan tailored to their organization
- Work with all roles and levels in the organization to continually optimize the value stream

Topics Covered

- Introducing DevOps
- Mapping your Continuous Delivery Pipeline
- Gaining alignment with Continuous Exploration
- Building quality with Continuous Integration
- Reducing time-to-market with Continuous Deployment
- Delivering Business Value with Release on Demand
- Taking action

What you get

Class registration includes:
- Attendee workbook
- Preparation and eligibility to take the exam
- One-year membership to the SAFe Community Platform
- Certification of completion
- SAFe DevOps Practitioner certification upon passing of exam

Attendees must attend both days of the course in order to qualify for the exam.

Annual Renewal

Certifications expire one year from the date of certification is earned.
- Renewal fee: $100/year

Professional Development Units(PDUs) and Scrum Education Units (SEUs)

- You may be eligible to apply for 15 PDUs toward your continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications
- You may be eligible to apply for SEUs under Category C, toward earning or renewing your CSP through the Scrum Alliance

Register

Please email the following information to max.ko@agiletechdevelopment.net

Particular Information	Details	Remarks
Full Name		• *Full Name for registration and to be printed on the certificate*
Contact Number	Country Code + Area Code + Mobile Number	• *Do be able to be reachable by WhatsApp/Line/Viber/Wechat* • *Preferred hours of contact*
Email Address		• *Contactable Email Address*
Preferred Date / Time	Date / Time	• *Do indicated your time zone you are at*
